# Action items after LWG 36

## (Boulder 08/2011)

1. Explore possibility of pre-launch ADM Science Workshop co-sponsored by NASA, NOAA, ESA, EUMETSAT (WB, MH, LPR)
2. Send ADM Cal/Val proposal (Hardesty and Riishojgaard) to GK, CC Jack Kaye (MH, LPR)
3. Request support for WISSCR OSSEs from the Director of Air Force Weather (WB, LPR, MH)
4. Provide LWG feedback to NASA HQ (Ramesh) and GSFC on success of airborne missions (MH)
5. Set up trip to India to brief heads of Indian MOES and ISRO on WISSCR and interact with Indian scientists (MH, TK)
6. Finish and submit the BAMS article (WB et al)

## Action items (2)

7. Explore connections with UCAR/NCAR for data management, field validation (MH, JV)
8. Continue to look for opportunities to co-fly DAWN and TWiLite (BG, MK) and to demonstrate hybrid concept
9. Submit a WISSCR abstract to the AMS annual meeting (MH)
10. Develop a subcommittee to consider design modifications to a DWL mission for additional earth science measurement capabilities (MH, GK, CG)
11. Work to incorporate ESA experiences for technology assessment of spacebased UV technology (MH, ME)
12. Work to get WISSCR and space-based winds in the new Indian Science and Technology 5-year plan
