2nd AMS Data Analysis Clinic Mtg (2010) Evaluation

Survey Status: **Active** Launched: 2/26/2010 1:42 PM Closed: N/A

Email Invites: 0	Visits: 30	Partial: 0	Screen Outs: 0	Over Quota: 0	Completes: 28 (Does not include blank responses)
------------------	------------	------------	----------------	---------------	--

1. What is your OVERALL RATING of the usefulness to you of the 2nd AMS Data Analysis Clinic Mtg (2010)?

5 (extremely useful)		9	33%
4 (very useful)		10	37%
3 (quite useful)		8	30%
2 (somewhat useful)		0	0%
1 (a little useful)		0	0%
0 (not useful at all)		0	0%
Total		27	100%

2. Rate the Importance and Usefulness of the TOPICS discussed in the 2010 AMS Data Analysis Clinic

Top number is the count of respondents selecting the option. Bottom % is percent of the total respondents selecting the option.	Not so useful or important	2	Medium	4	Most useful or important
General Issues: calibrations, CE, RIE, MS intercomparisons...	0 0%	0 0%	2 7%	13 48%	12 44%
PMF and its application, error estimation.	0 0%	3 11%	6 22%	10 37%	8 30%
HR issues: fittings, HR errors, elemental analysis etc.	1 4%	0 0%	3 12%	13 52%	8 32%

3. Rate the various ORGANIZATIONAL ASPECTS of the meeting:

Top number is the count of respondents selecting the option. Bottom % is percent of the total respondents selecting the option.	Poor	2	OK	4	Excellent
Location and Time of the Meeting	0 0%	0 0%	3 11%	13 46%	12 43%
Organization Separate from a Major Conference	0 0%	0 0%	5 18%	6 21%	17 61%
Logistics: room, internet, coffee, lunches, breaks...	0 0%	0 0%	2 7%	10 36%	16 57%
Order and Time Allocation of Topics	0 0%	1 4%	8 29%	11 39%	8 29%
Opportunity to Work on and Discuss your Data	0 0%	2 7%	8 30%	8 30%	9 33%
Opportunity to Discuss with Other Users	0 0%	0 0%	4 14%	11 39%	13 46%

4. Do you have any COMMENTS about the 2010 Clinic? (Leave blank if none)

[View 7 Responses](#)**5.** The 3rd AMS Data Analysis Clinic is tentatively scheduled for March 21-25, 2011 in Boulder. Will you attend?

Yes		13	46%
Very Likely		7	25%
Maybe		8	29%
Probably Not		0	0%
No		0	0%
Total		28	100%

6. Do you have any SUGGESTIONS for the CONTENT or ORGANIZATION of the 2011 AMS Data Analysis Clinic?[View 5 Responses](#)**7.** What TYPE OF USER are you?

New (1 yr or less w/ AMS) or inexperienced (had AMS longer but did not use much)		6	22%
Recent (2-3 years, but using AMS a lot)		7	26%
Experienced (4+ years using AMS a lot)		8	30%
Core (Involved in AMS Development)		6	22%
Total		27	100%

8. Which INSTRUMENT VERSION(s) do you work with currently, or are planning to work with very soon?

Q-AMS		0	0%
C-ToF-AMS		2	7%
HR-ToF-AMS		12	43%
Mini-AMS		0	0%
Multiple "Standard" AMS (Q, C, HR, Mini) Versions		6	21%
"Specialized versions": LS-AMS, SP-AMS, TAG-AMS, MAB-AMS etc.		2	7%
Both Standard AMS and Specialized versions		6	21%
Total		28	100%

#	Response
4. Do you have any COMMENTS about the 2010 Clinic? (Leave blank if none)	
1	Some users were a little quiet and did not seem ready to present their own data. Everyone should be encouraged to present.
2	I attend the previous data clinic in 2009 and felt that that was more useful. I can't really put my finger on why though. Overall though, it was helpful and I appreciate the effort of the CU group (and all the users).
3	I think we spent a bit too much time on PMF. It was almost a full day, and probably about half of the people in the room don't do PMF and were therefore not that interested.
4	I felt a lot of time was spent on the first day discussing the UHSAS which was a little off topic. I also felt as a community we should have discussed the elemental analysis errors more and come to a consensus as to how to evaluate and report them rather than just discussing fitting uncertainty.
5	I wish there had been more time to work on your own data, like at the first clinic. I think the perfect format would be somewhere between the data centric first clinic and the talk centered second clinic.
6	The clinic is excellent, but the order of the topics can be rearranged a little bit depending on the level of interest. For instance, in the future maybe the PMF section can be moved to the beginning/end of the meeting so that users who are not running PMF can choose whether they want to attend.
7	The room from 2009 was better.

6. Do you have any SUGGESTIONS for the CONTENT or ORGANIZATION of the 2011 AMS Data Analysis Clinic?

#	Response
1	4 days is the right length, more would be too much and less would be too short to justify the trip. It is important to have several advanced users (Doug, James, Donna, Pete, Leah, Mike...) present. Thanks to CU and Aerodyne for the organization, free registration, dinner...
2	One suggestion: it would be nice to form small groups to discuss about topics like: baseline, m/z calibration, RIE, peak shape, pika fittings... same way as happened in the first Clinic. It could happen in the last day for example, so people who doesn't want to participate can just leave.
3	I think that we should have more time to work with our data sets.
4	I felt like the clinic ran out of steam after 3 1/2 days. I suggest that you either shorten the clinic to 3 - 3.5 days instead of 4 OR make the first 1/2 day of the clinic (when people are not burnt out) a mandatory 'work on your own data set' period for people to get one-on-one support from Donna etc and get a better handle on the specific analysis details that remain unclear.
5	maybe we can try to get through all of the topics that are on the list in the first three days, and then spend the fourth day on more in depth discussions (e.g. the "how to choose a solution in PMF" this year)
